

6245AB-C

SOFT SERVE FREEZER

2 Flavor, Countertop, Pasteurization
Pump Feed Model

Powerful & Versatile

two-flavor table model with
Auto-Pasteurization and
intelligent controls

Auto-Pasteurization

Significantly reduces frequency of cleaning to every 21 days with scheduled daily auto-pasteurization

Digital Control and Display

Microprocessor control provides access to system settings and additional functions. Digital interface displays critical info as system status, temperatures, dispense count, errors, etc.

Operation Logging

Logs every operation and error to provide history and data for easy troubleshooting

Auto Programming

Allows automatic switching of operation modes based on preset schedules

Ideal for medium capacity outlets to serve ice cream and gelato with desire for significant reduction in labor cost of cleaning.

Hopper Agitator

Maintains product consistency and prevent product separation

Defrost for Cleaning

Increases efficiency during cleaning by heating frozen product in cylinder

Safety Protections

- Low temperature and motor overload shutoffs to protect in the event of cylinder freeze up
- High pressure switch to prevent compressor overheating

Quick Refresh

Turn on freeze immediately to freeze down to serving viscosity when quick service is required after long idle period

Self Closing Valve with Speed Control

Automatically prevents product overflow after dispense; Provides flexibility in dispense rate control
